

# Introducing “The Ultimate Clamping Stand”

By Rabco

You can clamp virtually any size board, pipe, tool or piece of equipment up to 4½” thick while you saw, sand, drill, repair, glue and the list goes on. It has a thousand and one uses. It’s lightweight yet very sturdy, which makes it extremely versatile and portable.

The Adjustment Block is what gives the “Ultimate Clamping Stand” its tremendous versatility. Using the adjustment block correctly gives you more leverage, better balance and protects your hands and fingers.

The “Ultimate Clamping Stand” allows you to clamp an object while keeping your foot firmly on the ground providing better balance. This allows you to keep both hands on a tool for better safety and protection.
